DEPLOYMENT NOTES

HOW STRONG TEAMS ACTUALLY USE THIS ASSET

- Assign one accountable owner instead of letting "Chiropractic Recall Conversion Kit" become shared but unmanaged work.
- Use it with chiropractors, office managers, and front-desk teams in a weekly rhythm so the asset drives decisions rather than sitting in a folder.
- Decide in advance what counts as green, watch, and red performance so the team knows when to escalate.
- Capture learnings directly in the document every week so the asset becomes smarter over time instead of resetting to zero.

30-DAY ROLLOUT SEQUENCE

- Reactivate inactive patients before they disappear from the schedule entirely.
- Tighten reminders and booking flow so rebooked visits actually happen.
- Use reviews to reinforce trust while recall volume grows.
- Turn quiet charts into a steadier recurring-visit pipeline.

WHAT SEPARATES A SERIOUS VERSION FROM A BASIC TEMPLATE

- Clear ownership for every step, not generic advice without accountability.
- Targets, thresholds, or decision rules that tell the team what good looks like.
- Specific working components: Chiropractic Recall Reactivation Pack, No-Show Reminder Pack, Booking Readiness Checklist for Small Businesses, and more.
- A built-in review cadence so the document becomes part of operations rather than a one-time download.
